Swiss Cyber Security Days (SCSD) announces new slogan and appoints Scientific Advisory Board

The Swiss Cyber Security Days (SCSD) will be held at the BERNEXPO site in Bern for the second time on 18 and 19 February 2025. On the two main stages over the course of two days, high-ranking national and international speakers will demonstrate why cyberspace and new technologies such as artificial intelligence are among the greatest opportunities and challenges of our time. The speakers are drawn from the various domains of science, research, defence, administration, business and media. Following this year's success – with over 2,300 visitors, auditoriums full to capacity and more than 90 exhibitors – it's already time to look ahead to the next instalment.

The new slogan says it all: Eye of the Cyber – create tomorrow

Under the slogan "Eye of the Cyber – create tomorrow", SCSD 2025 will focus deeply on the urgent need to actively and courageously shape the digital future, examining in great detail the challenges posed by cyberspace and the potential of new technologies. This unique programme will highlight the latest insights from the fields of technology, research and geopolitics in cyberspace.

Scientific Advisory Board a guarantee of top quality

The SCSD's newly created Scientific Advisory Board is an interdisciplinary think tank composed of well-respected experts from numerous domains. All its members have a proven international reputation and are able to call upon an extensive network.

The following people sit on the Scientific Advisory Board:

- Professor Touradj Ebrahmimi – Director of Multimedia Signal Processing Group, EPFL
- Dr Marc Stoecklin – Head of Security Research, IBM Europe
- Elisa Torres – Founder & CEO of Girls in Quantum
- Dr Jean-Marc Rickli – Head of Global and Emerging Risks, GCSP
- Martin von Muralt – Delegate of the Swiss Security Network, SSN
- Damir Bogdan – CEO "QuantumBasel"
- David Marti – Program Officer Artificial Intelligence "Pour Demain"

"In February 2025, Bern will once again become the cyber city of Switzerland. National and international luminaries will highlight the opportunities and challenges of cyberspace as well as new technologies and their impact on society," says Doris Fiala, President of the SCSD and a former National Councillor (FDP).

An event organised by
BERNEXPO

SWISS CYBER SECURITY DAYS (SCSD)

SCSD is Switzerland's leading cyber security dialogue and know-how platform. It bridges the knowledge gap between technology, business and population, offering policymakers, administrators, experts and users insights into current and future threats as well as innovative solutions. This platform is an opportunity for all national and international stakeholders to exchange information, inspire others and meet with leading security experts.

The sixth edition of the SCSD will take place on 18 and 19 February 2025 at the BERNEXPO site in Bern.

The President of the SCSD is former National Councillor and FDP politician Doris Fiala.
