The Swiss Cyber Security Days 2025: the latest findings, dominant technologies, strong partners and a hallelujah

The Swiss Cyber Security Days (SCSD) will take place on February 18 and 19, 2025 at the BERNEXPO site in Bern. In addition to illustrious strategic partnerships, the unique program once again stands out. The latter features numerous highlights such as the contribution by Prof. Dr. Paolo Benanti, advisor to Pope Francis and member of the Third Order of St. Francis Regular. High-ranking national and international personalities from the fields of science, defense, administration, business and civil life will show how dominant technology defines the present and the future, and why the importance of a secure cyberspace has never been greater.

The Swiss Cyber Security Days (SCSD) will take place on February 18 and 19, 2025 on the BERNEXPO site. Over two days, high-ranking national and international speakers will take to the two main stages to show how dominant technology is shaping the present and the future, and why a secure and sovereign cyberspace is of the utmost importance for Switzerland. The speakers come from the fields of science, research, defense, administration, business, security, media and civilian life. The numerous program highlights include speeches by personalities such as the head of the Swiss Armed Forces Thomas Süssli, Prof. Dr. Paolo Benanti, advisor to Pope Francis and member of the Third Order of St. Francis and Dr. Severin Schwan, Chairman of the Board of Directors of Roche Holding AG.

Nik Gugger, President of the Swiss Cyber Security Days, says: “The SCSD are developing tip top: once again, the program uniquely covers the most important areas of cyber security and new technologies - and expands the view based on geopolitical developments and social debates”. “The contributions form an ideal basis for classifying cyberspace as a whole, addressing opportunities and risks in order to develop as a secure and self-determined society,” says Nicolas Mayencourt, Program Director of the SCSD.

Renowned exhibitors and strong sponsors

In addition to partnerships with numerous associations such as asut and the Swiss Venture Club, SCSD 2025 can count on many national and international exhibitors and

sponsors. DreamLab Technologies and Hornetsecurity will be represented as Diamond Partners. Palo Alto Networks, CISCO, Hewlett Packard Enterprise, ELCA, Standortförderung Kanton Bern and many more will also be on board. A total of around 90 partners and exhibitors will be presenting their innovative best practice solutions and products at the two-day event. "Collaboration with partners and exhibitors is working well at all levels, both nationally and internationally, and there is great interest in the two-day event," says Tom Winter, CEO of BERNEXPO AG. "With the Swiss Cyber Security Days 2025, we are building on last year's success."

Swiss Cyber Security Days (SCSD)

The SCSD is Switzerland's leading platform for dialog and know-how in the field of cyber security and offers politicians, administrators, experts and users insights into current and future threats as well as innovative solutions. The platform is open to all participating national and international players for the exchange of information, inspiration and meetings with leading security experts.

The SCSD will take place on February 18 and 19, 2025 in Bern at the BERNEXPO site.

The SCSD is chaired by National Councillor and EPP politician Nik Gugger.
